

GHHS TOKEN

Tokenizing
Ecosystem

Token Objective

The GHHS Token is a distinctive utility token developed specifically to enhance members' experience within the GHHS Healthcare ecosystem. All GHHS Healthcare members will be rewarded with GHHS Tokens. The GHHS Token is not designed as an investment asset and is therefore not subject to securities regulations. Its primary purpose is to foster and support the growth of the GHHS Healthcare ecosystem, with its value derived from its utility within the ecosystem.

ABOUT GHHS HEALTHCARE

GHHS Healthcare (a subsidiary of a public listed company - Country Heights Holdings Berhad) was established in 2001 as a Corporate Social Responsibility initiative, as Malaysia's 1st dedicated preventive health screening center, to advocate the philosophy of "Prevention is better than cure". As this idea gained momentum and followers over the last decade, GHHS Healthcare evolved its business to respond to the need and interest from our customers on Preventive Healthcare. Thus, today, GHHS Healthcare provides a wide range of health screening services and specialist clinics.
